After running the query and manually checking I would manually add the FHL Film Number of 916767 and delete Gardiner from Parents mother's maiden name of Gardiner as it is not referenced in the ancestry source. Overall, a considerable time saving and I hope it is not a lengthy process to code. Can we also delete the original record or at least rename it so I can manually check all of the citations that are not baptisms? I have included a list to show you what I mean. Regards Wayne b
